

Please insert the following newly added claims:

Claim 16 (new).

A wrapping system comprising:

a sheet member having an upper surface and a lower surface;

an adhesive disposed on the lower surface such that the adhesive leaves macroscopic regions of adhesive discontinuity in a regular and repeating pattern; and

wherein the sheet member is used to wrap an object including an object that has corners and 90 degree edges and wherein the adhesive allows repositioning of the sheet member for a period of time in excess of at least one day when wrapping the object yet holds the sheet member firmly on the object at the conclusion of the wrapping process.

Claim 17 (new).

The wrapping system as in claim 16 wherein the adhesive is an acrylic copolymer.

Claim 18 (new).

The wrapping system as in claim 16 further comprising a peel strip covering the adhesive.

Claim 19 (new).

The wrapping system as in claim 16 further comprising a nonstick material disposed on the upper surface.

Claim 20 (new).

The wrapping system as in claim 16 wherein the sheet member is made from a material chosen from the group consisting of paper, cloth, cellophane, foil, polymer film or combinations thereof.

Claim 21 (new).

The wrapping system as in claim 16 wherein the adhesive has a peel strength of at least about 0.5 pli.

Claim 22 (new).

The wrapping system as in claim 16 wherein the adhesive has a peel strength no greater than about 2.5 pli.

Claim 23 (new).

The wrapping system as in claim 16 wherein the adhesive has a peel strength of about 1.4 pli.

Claim 24 (new).

The wrapping system as in claim 16 wherein the adhesive has a peel strength of between about 0.5 pli and about 2.5 pli.

Claim 25 (new).

The wrapping system as in claim 16 wherein the pattern of the adhesive is a striped pattern.

Claim 26 (new).

The wrapping system as in claim 16 wherein the pattern of the adhesive is a crisscross pattern.

Claim 27 (new).

The wrapping system as in claim 16 wherein the pattern of the adhesive is a checkered pattern.

Claim 28 (new).

The wrapping system as in claim 16 wherein the pattern of the adhesive is a scallop pattern.

Claim 29 (new).

The wrapping system as in claim 16 wherein the pattern of the adhesive is a reverse scallop pattern.
